This course is a springboard to working with us. We've created it for young people over 18 years of age, with friendly, energetic and creative personalities, who have no experience in the world of tourist entertainment but who want to do a training course that will enable them to work in this sector.

The face-to-face course takes place in a hotel and is taught in English. It has two sections:

- **Online section.** 7-10 days before travelling to the hotel, each participant will have access to an online training portal with theory lessons on tourist entertainment. At the end of each module there is a short self-assessment questionnaire to verify that all the concepts have been understood. The aim is to consolidate all the knowledge learned before arriving at the hotel.
- **Face-to-face section.** After arriving at the hotel, for the next 10 days the participant puts into practice the theory they have studied. They learn microphone techniques and about daytime and evening entertainment programme activities for different types of guests.

At the end of the course, all students who have successfully completed it will receive an Activ certificate of attendance and be offered a job working in one of our teams.

Objective: that the student learns, acquires and implements the tourist entertainer techniques necessary to create a memorable holiday for the guests.
